PROFESSIONAL EXPERIENCE

Clan-AP Technologies

QA Engineer

September 2022 – present
Kharar, Punjab, India

I have 2+ years of experience as a seasoned QA Engineer in this field, I excelled in deploying rigorous testing protocols across **multiple domains including finance, healthcare, e-commerce, and social media applications**. My role was critical in building robust test frameworks and ensuring product excellence through detailed test case development and automation.

Key Responsibilities:

- **Test Case Development:** Crafted and managed over 3500 test cases tailored to specific domain requirements, ensuring broad coverage across functional and non-functional aspects.
- **Bug Reporting:** Effectively reported and tracked more than 1,500 bugs, using insights to drive improvements and enhance software quality across all domains.
- **Automation Scripting:** Authored over 2000 scripts for automation tools like Cypress and Playwright, significantly streamlining testing processes in varied environments.
- **API Testing:** Conducted thorough API testing to validate data integrity, functionality, and performance across diverse domains, leveraging tools like Postman.

Achievements:

Automation Leadership: Led the integration of Cypress and Playwright into the QA processes, reducing regression testing times by over 35-40%.

Quality Impact: My direct contributions helped decrease customer-reported issues by 30-35% post-launch, affirming the effectiveness of my testing strategies.

Innovative Solutions: Developed a proprietary suite of automated testing components that reduced maintenance time by 25-30% and adapted seamlessly to new features.
